

GREAT TECHNOLOGY.

Machines from Bietigheim - The modern answer to your packaging needs!

For advanced production using tomorrow's technology today.

No matter where you go and who you ask in the world – whether in Brazil, Dubai or Vietnam – you will always get the same answer: **if you want a great machine, you have to go to Bietigheim!** Our town is known throughout the world to decision-makers in industry. Close to Stuttgart and right next door to Porsche, Bosch and Daimler, this is the place to find everything you have long been searching for elsewhere: a wide range of machines and systems for packaging technology. Made for every application, perfectly designed in every aspect and guaranteed cost-efficient!

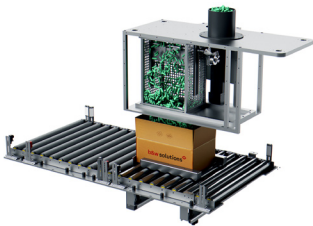

Everything you need to know at a glance:

Handle-applying machine

Fully automated. Single or double-lane for use in the beverage, food, paper and chemical industries. Suitable for bottles, cans, cartons, Tetra Paks and paper rolls. Available with a large range of accessories and consumables.

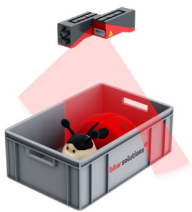

made by
b&w solutions GmbH
Deutschland

Flipsmaster filling shipping machines

This machine uses 3D laser scanners to detect the difference in volume available between the goods and the shipping box volume and fills it with the precise amount of cushioning material needed to provide optimal protection of your goods during transportation.

b&w solutions GmbH
Deutschland

Stretch wrapper machines

Semi and fully automated stretch machines. Mobile stretchers, turntable winders, rotary arm wrappers and ring winding systems. We deliver the perfect solution for every need. Wide range of stretch films available.

distributed by
Atlanta Deutschland GmbH

... and even more:

Cardboard erection and flooring machines

Semi and fully automated machines from COMARME. Optional glue processing or hot gluing. Dynamic height with simple and infinitely variable conversion to different format sizes. Available in steel or stainless steel.

distributed by
Atlanta Deutschland GmbH

Carton sealing and gluing machines

Semi and fully automated machines from COMARME. Optional glue processing for self-/wet adhesive tape or hot gluing. Allows for quick and safe carton closing by adapting itself to the height and width of the carton.

distributed by
Atlanta Deutschland GmbH

Strapping machines

Manual devices, semi and fully automated machines. For the highest demands in transport safety. Ideal for strapping packages, shipping boxes and pallets. We also offer specific solutions tailored to your production needs.

distributed by
Atlanta Deutschland GmbH

Shrink and tray packer

High performance-range, fully automated packaging machine. Highly flexible thanks to its modular design. Simple-to-change formats and excellent work area accessibility. Optimum energy efficiency thanks to its integrated high-performance shrink tunnel.

distributed by
Atlanta Deutschland GmbH

Wrap-around packer

Medium performance-range machine for packaging glass, PET or metal containers in the food and non-food segments. High availability thanks to failure-free operation. Fast format changes boost production efficiency.

distributed by
Atlanta Deutschland GmbH

Complete systems and special solutions

No matter what demands your production places on packaging and conveyor technology, we develop, plan and build great solutions that are perfectly matched to your production processes. Expert knowledge and years of experience guaranteed!
